

Dear Patient,

[RNID](#) is a national charity supporting more than 18 million people in the UK who are deaf, have hearing loss or tinnitus. This enables patients to be seen locally and don't have to attend an audiology appointment. Patients can self-refer and can drop-in. **It provides support for City and Hackney residents with hearing loss / deafness / tinnitus symptoms.**

Who needs this service?

- **Elderly residents** – the prevalence of age-related untreated hearing loss ranges from 35-94% from aged 60 years onwards.
- **Those who require hearing aid support such as hearing aid fitting and maintenance** e.g. replacement of batteries, tubing and ear moulds providing by the audiology service or cleaning aids and advice
- **Accessible services for general adult population who have not yet had a hearing check**, therefore preventing long-term hearing loss

There are several clinics available across the borough at:

| Location                                     | Day Time                                   |
